

Hi! My name is Maya Fisher and I'm from Tampa, Florida. I am a freshman at Lehigh University planning to study Architecture. Some of my hobbies include taking pictures, trying new foods, and swimming.

Leaves of Lehigh
Maya Fisher

The inspiration for this book was Lehigh's beautiful campus. Since I am from Florida, I am not used to seeing all the leaves change color in the fall time. The leaves on the trees here are so beautiful, and I really wanted to capture that on camera. As I walked around campus on the daily, I shot pictures of leaves that I thought encapsulated awesome colors and texture. Throughout shooting for this book, I began to appreciate nature even more and really looked at the small things. I took some pictures of leaves close-up and some pictures with a zoomed out view. I liked how I chose to use both styles because it creates a nice contrast while flipping through my book. I hope you enjoy!
